High School with a GPA of 95.7

SKILL

Front-end websites

85%

media query

78%

problem-solving

88%

Programming with c++

92%

Programming with javascript

66%

LANGUAGES

- Arabic
- English

EXPERIENCE

2021 - 2022

learning the front-end of websites.

I started from a summer course held at my university

- The course ended with a competition to create a unique website, and my partner and I won first place.

The first year of studying

- I finished my first year in my major, with an average of 90%, and we learned C++ programming, problem-solving, and some numerical logic.
